

August 20, 2020

Kristen Romilly
Director, Western Canada
Call2Recycle
2590 Granville Street, Suite 201
VANCOUVER BC V6H 3H1

Dear Kristen Romilly:

The Government of Saskatchewan passed *The Household Hazardous Waste Products Stewardship Regulations* (the Regulations) in June 2019, which require industry first-sellers to establish a provincial program for the collection and recycling or safe disposal of several categories of household hazardous waste.

On December 9, 2019, Call2Recycle submitted a product stewardship program (PSP) plan for the management of consumer batteries. Call2Recycle worked closely with the Ministry of Environment to ensure the PSP aligns with the regulatory requirements. The PSP was approved by ministry on April 27, 2020, with the understanding that the regulated battery recycling program will launch on January 1, 2021.

If you would like to discuss this further, please contact Brienne Bennett, Senior Waste Management Coordinator at (306) 787-7032 or brienne.bennett@gov.sk.ca.

Sincerely,

Brady Pollock
Executive Director, Environmental Assessment and Stewardship Branch
Ministry of Environment

cc: Shelly Nicolle-Phillips, Manager, Waste Stewardship and Recycling, Ministry of Environment
